1.0 Introduction

The Granting of Citizenship for Exceptional Services Regulations (S.L. 188.05)¹ (the Regulations) allows for the granting of citizenship by a certificate of naturalisation to foreign individuals and their families who contribute to the economic development of Malta. Every application is subject to a stringent due diligence process, including thorough background checks. Community Malta Agency (the Agency) is the competent Maltese Government Agency responsible to administer these Regulations.

The Maltese Citizenship by Naturalisation for Exceptional Services by Direct Investment Handbook (the Handbook) shall be considered as the principle policy and guidelines on how applications under the Regulations shall be submitted to the Minister for citizenship through the Agency.

Prospective applicants can have various reasons for applying for Maltese citizenship under these Regulations. In all cases, all applications shall be treated by the Agency equally.

The eligibility criteria for applicants are clearly set out in S.L.188.05, and the subsidiary legislation regulating agents is Agents (Licences) Regulations (SL.188.06)².

It is highly recommended to read these guidelines thoroughly and adhere to the practices as explained to ensure swift processing of applications. Deviations from these guidelines may result in delays and possible rejection of an application.

Attention to detail is necessary as all applications are thoroughly examined, and the Office of the Regulator (the Regulator) ensures that all the processes have been implemented correctly and rigorously by both an agent and the Agency.

All applications shall be compiled with due regard to the latest directives on AML/CFT and any implementing guidelines published by FIAU.

In case of conflict between the guidelines and the legislation, the Act and Subsidiary Legislation shall supersede these guidelines.

The table on the next page shows detailed information about the minimum required Investment and administration fees to qualify for citizenship under the Regulations.

1.1 Definitions & Interpretations

Definitions and Interpretations shall follow those as laid out under the Granting of Citizenship for Exceptional Services Regulations (S.L. 188.05); the Agents (Licences) Regulations (SL.188.06); and the Prevention of Money Laundering and Funding of Terrorism Regulations (S.L. 373.01)³.

1.2 General Documentation Guidelines

Certified true copies of any documents must be in high-resolution, with any information remaining clearly legible. Certification should be evidenced by a written statement stating that the document is a “true copy of the original document seen,” and in the case of a document that includes a photograph, it should also state that “the photo bears a true likeness of the person who appeared before me”.

If possible, copies of the original document should be made in colour. Furthermore, authentication must be carried out according to the following criteria:

1. No apostille or further legalisation is required for documents certified by:
 - a Malta-registered lawyer/notary public/commissioner for oaths;
 - a Maltese Consular; or
 - a Maltese Diplomatic Representative.
2. An apostille is required for documents certified by a foreign-registered lawyer/notary public in any country that is party to the Apostille Convention. If authorities refuse to apostille the document on the basis of language, it is recommended to visit a Maltese Consular or Diplomatic mission which would see to completing the authentication;
3. The legalisation of documents authenticated by a foreign-registered lawyer/notary public in a country which is not party to the Apostille Convention and where no Maltese diplomatic representation exists will require the lawyer/notary public to complete the certification, which is then taken to the Government authorities in that jurisdiction for the necessary Governmental authentication;

It is essential that at this stage, original, apostilled documents such as Acts of Birth and Marriage/Civil Union are submitted to the Foreign Registrations Office at the Public Registry as a separate pack

³ <https://legislation.mt/eli/sl/373.1/eng/pdf>

denoting the unique reference number of the application. This allows the Public Registry Unit to review and report back any anomalies to the agent.

As the Agency acknowledges that the original apostilled documents are required at the Public Registry Unit, certified and, where applicable, authenticated copies will suffice for the Agency unless otherwise stated.

An official English translation must always accompany any documents that are not in the English language (including certifications or stamps). A professional translator (officially accredited by a court of law), a government agency, an international organisation or a similar official institution must prepare translations. If the translation is prepared in a country where there are no officially accredited translators, a company whose sole or main business is doing professional translations must prepare the translation. At least one authorised signatory of the translation company must sign the translation.

Please note that translators should include, in a clear and legible format, the date, the full name, the capacity and the designation in which they are acting, the residential or business address, the telephone number and the email address/website. In the case of translation agencies, a letterhead should be utilised, thus providing all details relevant to the firm who produced the translation.

It is highly recommended to use the services of well-known and reputable translation agencies/translators. In case of translators who are accredited to a country's court of law or similar official institutions, provision of accreditation details would be considered more favourably.

It is important to note that at any point throughout the application process, the Agency reserves the right to request further details pertaining to the translator and/or translation agency, or even to request a retranslation by a different translator.

2.1 Signing the Power of Attorney

The power of attorney (explained in *Chapter 5.0 – The Eligibility Application Pack*) is the first step in the application process. The power of attorney allows the agent to act on behalf of the client in all matters related to the Application for Eligibility and Application for Citizenship. This includes providing the Agency with additional client information which may already be held by the agent or amending any information on the submission forms.

The agreement should make clear that the power of attorney is granted for all matters related to the Applications, while being valid for the entire duration of the Application's processes.

2.2 Residency Application

From receipt of the residency application pack at the Agency until the issuance of the e-residency card takes around 15 working days (depending on the quality of application).

One of the requirements of the Regulations is that an applicant and all adult dependants must hold Maltese residency status for a minimum of 36 months or by exception for a minimum of 12 months. During this period, agents may submit citizenship eligibility applications. However, citizenship may only be applied for after the applicable period from the acquisition of residency.

Before agents submit a complete residency application, they are required to submit digital scans of Form Ks and passport data pages for all applicants and their dependants via email at info.komunita@gov.mt. Once the Agency receives the 1st clearance, the agents are contacted to fix a biometrics-capture appointment and possible interview, to be scheduled at any one day within 6 months from clearance issuance.

Upon receipt of the application pack, the Agency will issue a request for payment equivalent to €5,000 for the Applicant and €1,000 for each dependant, which are non-refundable. The first non-refundable deposit of €10,000 of the investment will also be due at this stage. Every card issued carries a fee of €27.50. The residency application is explained in detail in *Chapter 4.0 – The Residency Application Pack*.

Residency status is issued for 36 months which can only be extended if an eligibility for citizenship application has been submitted.

If a residency card needs to be renewed, it is advisable that the Agency is informed beforehand. The residency card renewal process is similar to the original residency application process. The issue date of a renewed residency card will be sequential to the expiry date on the current card and may not be

backdated. Renewed residency cards are also issued for 36 months. Residence cards will not be renewed if an eligibility for citizenship application has not been submitted. If the residence is lost or the applicant changes the address attributed to it, or for any reason a new card needs to be issued, the applicant will have to visit our offices to re-capture new biometrics.

2.3 Submission of the Eligibility Application

From receipt of the eligibility application pack until issuance of a formal receipt by the Agency including the payment request voucher takes approximately 2 working days.

Agents can submit the eligibility application once the residency card has been issued. The eligibility application should be submitted within 12 months from the issuance of the residency card. A formal receipt together with the payment request voucher is issued. The payment request voucher covers the due diligence and administrative fees.

It is essential that at this stage, original, apostilled documents such as Acts of Birth and Marriage/Civil Union are submitted to the Foreign Registrations Office at the Public Registry as a separate pack denoting the unique reference number of the application. This allows the Public Registry Unit to review and report back any anomalies to the agent.

2.4 Receipt and Processing of the Eligibility Pack

Submission of Eligibility Pack within 12 months from the issuance of the Residency Card.

Once the payment request voucher is paid, the Agency continues through the different stages.

The Agency's due diligence process starts with what is termed as the M1 stage, at which the application is checked for completion and correctness, ensuring that all the forms have been provided and are adequately completed, together with all the supporting documents and their validity. This part of the process categorises an application as an M1-A, in which case it can proceed to the next stage unencumbered, or an M1-B which implies that elements of the application are missing, inadequate or not in line with the criteria provided in this handbook.

If an application is deemed an M1-B, an M1-B report is issued by the Agency, specifying the amendments or the supplementary information required. Once the agent satisfies the requirements specified in the M1-B report. The information requested by the Agency through an M1-B report may vary from minor amendments to a form, to missing documentation such as police conduct certificates, or documents missing authentication/certification. In cases where the replies take excessive time or where significant new information is submitted, the Agency can request further due diligence fees to be applied, in order to do necessary updates.

When an application clears the M1 stage, it proceeds to the M3 stage. The M3 stage consists of an in-depth, critical review of the application and the supporting documentation.

2.5 Letter of Approval for Eligibility

From settlement of the payment request voucher until the letter of approval for eligibility takes between 120 and 150 calendar days, excluding any required agent interventions, and provided that all required application documentation is in order.

The Minister will either approve or refuse the application. If approved, a letter of approval for eligibility is issued, which enables the applicant to apply for citizenship in one year or three years' time.

2.6 Submission of Application for Citizenship

The applicant may opt to obtain citizenship either after 3 years or after 12 months. In each case, submissions should be made after the expiration of the respective residency periods.

2.7 Processing of Citizenship Application

Application documentation is vetted and if found complete, a due diligence update is carried out. The Agency will present to the Minister its findings, for his decision for approval in principle. Applicable administrative fees are to be collected.

2.8 Approval in Principle by the Minister

A letter of approval in principle is issued by the Agency once the Minister approves the Citizenship Applications.

2.9 Evidence of Fulfilment of Citizenship Requirements

Documented evidence that all citizenship requirements have been met must be presented within 4 months from the issue of the Letter of Approval in Principle, including:

- A 36-month or 12-month minimum residency status (including boarding passes);
- Copy of the lease or purchase agreement for property together with a declaration from the Applicant that the property will be kept for a minimum period of 5 years from the date of issue of

the letter of oath of allegiance. Should the lease agreement is signed on behalf of a company, the board resolution authorising the lessor to sign the agreement on behalf of the company must be presented.

- A valuation report by an architect confirming that the rental value is in line with the current market value;
- The investment of €600,000 or €750,000 and the remaining fees for each other dependant, if applicable.

Furthermore, the applicants must provide documented evidence that any personal, commercial or financial ties to the country that they opted to commit to in their residency proposal letter have been, or are being, honoured. It is highly important that the boarding passes, or manifest in case of travelling with a private jet, for each stay are kept and presented with the post-approval pack.

For the post-approval pack, the below documentation must be presented to the Agency:

- Copy of the receipt issued by the Agency for the investment made;
- Copy of the contract for the lease or purchase of the property;
- Valuation report by an architect declaring the current market rental value of the property, and which must include photographic evidence of the interior and exterior conditions of the said property;
- Copy of the boarding passes or manifest of incoming and outgoing travel from Malta;
- Receipt of the donation to a local voluntary organisation which must accompanied by a confirmation from the Commissioner for Voluntary Organisations that the organisation is duly registered;
- Proof that any commitments stated in the proposal letter have been honoured.

Once the documentation mentioned above has been reviewed and checked, the Agency will issue a letter of invitation so that a suitable appointment can be arranged for the Applicant and the dependants, under an application to take the oath of allegiance. The oath of allegiance must be taken in Malta.

2.10 Oath of Allegiance

From the provision of the documentation until the invitation for the oath of allegiance takes 5 working days;

Once all the required documentation has been provided, the Agency performs updated checks. If no adverse results are returned, and all the documentation is correct and complete, the Agency issues the invitation for the oath of allegiance.

The applicant shall be required to complete the process and take the oath of allegiance within 6 months from the approval in Principle by the Minister.

The Applicant and any dependants aged 18 or more must visit the Agency's offices in Malta to take the oath of allegiance.

After the oath of allegiance has been taken, a certificate of naturalisation is issued. The Agency will continuously monitor and ensure that the applicants continue to satisfy the eligibility criteria for 5 years from the date of the oath of allegiance.

2.11 Annual Compliance Form

Every Applicant needs to comply with and complete a declaration stating that the applicant is abiding by the requirement as stipulated by Subsidiary Legislation 188.05. The Compliance Form must be filed at the Agency on a yearly basis for 5 years from the date of the oath of allegiance.

2.12 Non-Eligible Nationalities

Currently, the policy of the Maltese Government excludes from applying individuals who are nationals of the Islamic Republic of Afghanistan, the Islamic Republic of Iran and the Democratic People's Republic of Korea (North Korea), or are non-nationals but reside, do business, have significant ties with, or connections to these countries. Citizens from countries who are on the US travel ban also cannot apply.

The Agency reserves the right to update the list of banned countries from time to time. Such list will be communicated with all agents accordingly.

The agreement must clearly appoint the agent as the 'attorney' with clear statements giving full authority to act on behalf of the Applicant and any dependants, in all matters related to an eligibility and citizenship applications.

The power of attorney is to be signed and dated by the Applicant and the agent while being independently witnessed by a person who should be suitably identified. Tier 1 due diligence checks must be carried out by the applicant's approved agent and presented as part of the client's residency application. They must consist of background checks (database and open-source checks) on all applicants and must be conducted in line with established industry standards and any applicable laws and regulations.

A comprehensive set of Tier 1 due diligence documentation needs to be presented together with a covering letter including:

As part of the application, the Agency requires an original or certified true copy of the agreement made between the prospective applicant and the agent, for the latter to act on the applicant's behalf in terms of the Regulations (the power of attorney).

In the proposal letter, the applicant must also confirm which residency period he/she will be opting for, either for a residence period in Malta for 12 months or for 36 months. Once this residency period is established in the Eligibility application submitted, it cannot be subsequently changed by the applicant.

As evidence of the residential address quoted in PDFEE Form, A22 the application should include documents such as a utility bill, a bank statement or correspondence from a central or local government authority / department / agency with the address showing. Any such documentation must have been issued within the 6 months preceding the application.

If any adult dependants do not reside at the same address as the Applicant (such as children currently studying outside of the jurisdiction where the Applicant resides), evidence of residential addresses will also need to be provided.

5.15 Police Conduct Certificates

Original

Police conduct certificates are required for all applicants age 16 years and over. Police conduct certificates are the only documented evidence of the applicant's conduct, according to the applicable jurisdictional laws. For the purposes of the application process, this document must have been issued within the 6 months preceding the application and must be original. If issued in a language other than English, police conduct certificates must be accompanied by a certified translation.

Police conduct certificates are required from the applicant's country or countries of citizenship and from each country he/she has resided in for a minimal cumulative period of 6 months in the last 10 years.

In the case of the United States of America, the conduct certificate as issued by the Federal Bureau of Investigation (FBI) should be provided.

If the country authorities would only issue a police conduct certificate upon receipt of an official letter from the institution requesting it, agents can write to the Agency and provide all the relevant details.

5.16 Social Credit Report

Original or Certified True Copy

Some jurisdictions provide credit information services to their citizens. China, for example, has introduced the Social Credit System for Chinese nationals. Applicants may apply for their own credit reports. Where available, Applicants should submit a recent credit report. If applicable, the relative translation is to be provided.

If, besides the Applicant, the spouse, de-facto partner or a benefactor has also compiled an SSFW Form, a recent credit report should likewise be submitted, where available.

5.17 Applicable Affidavits

Original

The Applicant should provide an affidavit for each dependant who is over 18 years of age, except for the spouse. In his/her affidavit the Applicant is to declare that the dependant is wholly maintained by him/her. In cases where the adult dependants are currently pursuing their studies, or have completed

them in the recent past, supporting documentation such as a letter of enrolment, is to be submitted along with the affidavit.

The Agency may at times require additional information other than what has been supplied within the application. In such situations, the responses should be provided in the format of a covering letter with an explanation and documented evidence. However, any response, which is not supported by documented evidence needs to be provided in the format of an affidavit, complemented with any apostilles where applicable.

All relevant details of the affiant must be provided, including full legal name, passport number and residential address.

The information/statements made in the affidavit must be documented in a clear and understandable format. If the affidavit is prepared in any language other than English, a translation will need to be submitted.

The professional who attests to the signature of the affiant should be empowered to do so under the law of the country where the affidavit is being taken, for example, a Lawyer or Notary Public. Such person must also stamp, sign and date the document and include, in a clear and legible format, the date, their full name, capacity and designation in which they are acting, residential or business address, telephone number and email address. All relevant pages must be initialled by the affiant and the professional witnessing the signature.

5.18 Tax Residency Jurisdiction Declaration

It is required that every applicant forming part of the application and is liable to pay tax, to sign a declaration clearly listing all the jurisdictions where the individual/s is/are a tax resident.

6.0 The Citizenship Application Pack [12 Months Residency]

An applicant who has already been confirmed as eligible to apply for naturalisation by the Minister may apply for citizenship after the 12-month residency period has passed.

The Citizenship Application Pack should include the following:

1. Agent's Covering Letter;
2. Forms R1, S1, T;
3. Affidavit declaring no changes in the Applicant's (and any dependants included in the eligibility application pack) state of affairs. A similar Affidavit is required from any benefactor contributing financially to the application.
4. If the applicant's (and any dependants') state of affairs changed since the submission of the eligibility application pack, an affidavit together with the relative form/s should be completed to reflect the changes. As in 3. above, this applies also to any benefactor contributing financially to the application.

Forms/documents needing updating may include:

- PDFEE Form;
 - SSFW Form, Bank Statements and Company Documentation;
 - MRQ Form;
 - Evidence of new residential address;
 - Any new passports issued.
5. Following from 4 above, unless major changes in the circumstances of any of the dependants have occurred since the submission of their eligibility applications, no forms/documentation are needed in support of the Affidavit signed by the Applicant. The only exception is in the case of new passports; a certified copy of the renewed/current passport is needed. Refer to 6.4 below.

All letters, forms, affidavits presented must show a date ensuing the expiration of the 12 months residency period.

6.1 Agent's Covering Letter

6.3 Affidavit (no change in the applicant's circumstances)

If the applicant's circumstances/state of affairs have not changed since the time when the Eligibility Application Pack was submitted to the Agency, then an Affidavit declaring that the information as provided during the Residency period has remained unchanged, needs to be submitted.

The Affidavit should also mention that no material changes to the dependants' circumstances have occurred.

If a third party will be contributing financially towards the application (a benefactor), an Affidavit signed by the benefactor should be submitted declaring that his/her state of affairs remained unchanged.

6.4 Affidavit (changes in the applicant's circumstances)

If during the Residency phase the applicant's circumstances changed, and these developments occurred after the submission of the Eligibility Application pack, then the Affidavit to be raised should incorporate such developments. A similar Affidavit should be raised if the application involves a benefactor.

Any changes in the Applicant's or benefactor's circumstances should be supported by the updating of the respective form/s – PDFEE, SSFW, MRQ, etc. as applicable. The Affidavit should also mention any material changes that may have occurred in his/her dependants subsequent to the submission of the eligibility application forms. In this case however, unless a major change in the dependant's circumstances has taken place, no supporting forms/documents will be needed. The only exception is when a new passport has been issued, in which case a certified copy of the whole passport (cover to cover) is required.

An example of a major change in circumstances of a dependant will be the unfortunate occurrence of a medical condition; in such a situation MRQ Form needs to be completed for the dependant.
